RESPONSES TO REQUESTS FOR INFORMATION:

QUESTION #1:

In reviewing the RFQ document, Part I 1.1 (H) I noted that it states: “As Thornton Tomasetti has performed all previous structural and seismic reviews of the building, it is the District’s preference that Thornton Tomasetti continue as part of the project design.” Will the district consider teams with other structural engineering consultants listed or will proposals listing other structural engineering firms be considered non responsive or be downgraded if they do not list Thornton Tomasetti as the structural engineering consultant?

RESPONSE TO QUESTION #1:

Please refer to section 5.2 of the RFQ, “Evaluation Factors.” Technical evaluations factors are listed in ascending order of importance, with Factor V being twice as important as Factor I. Firms that include other structural engineering firms will not be considered non-responsive.
