A. Deletions, Additions, Changes, Revisions

Item:

1. Add:

   a. The existing CFL fixture is a Pace Illumination fixture, model number HPGL-500-816-DT-4X42PLT-277-AL-SM51-CLF. The cut sheet for this fixture is provided.
   b. The specifications sheet for the Cool-Lite LED retrofit kit is provided.
   c. Los Medanos College does not require the up-light provided by the existing fixture to be maintained.
   d. No single emergency lighting inverter serves the 16 fixtures with the battery back-up systems. 16 separate battery systems are used.
   e. Each of the 16 existing fixtures with battery back-up systems have a remotely mounted battery mounted above the drop ceiling. The test button is in the ceiling, so it can be operated without opening the drop ceiling. Los Medanos College has no preference regarding the mounting of the new batteries as long as they are easy to maintain and access.
   f. Under normal power, the existing fixtures currently have 4 lamps working. When the power fails, fixtures with battery back-up systems should still have 2 lamps working powered by the back-up units.
