JOINT TRENCH GENERAL NOTES

1. All work shall be subject to the inspection and supervision of all appropriate regulatory agencies and the Joint Trench Inspector.

2. The Joint Trench Inspector shall be considered the owner's agent and the Joint Trench General Notes shall be considered the owner's instructions for the Joint Trench Inspector.

3. The Joint Trench Inspector shall be allowed to perform any and all work necessary to ensure compliance with the Joint Trench General Notes.

4. The Joint Trench Inspector shall be responsible for the proper and safe operation of all equipment used in the joint trenching process.

5. The Joint Trench Inspector shall be responsible for the protection of all utilities and other underground facilities.

6. The Joint Trench Inspector shall be responsible for the prevention of unauthorized access to the joint trenching area.

7. The Joint Trench Inspector shall be responsible for the protection of all workers and the general public.

8. The Joint Trench Inspector shall be responsible for the proper and safe operation of all equipment used in the joint trenching process.

9. The Joint Trench Inspector shall be responsible for the protection of all utilities and other underground facilities.

10. The Joint Trench Inspector shall be responsible for the prevention of unauthorized access to the joint trenching area.

11. The Joint Trench Inspector shall be responsible for the protection of all workers and the general public.

ELECTRICAL GENERAL NOTES

1. All electrical equipment shall be installed in accordance with the National Electrical Code and all local and state electrical codes.

2. All electrical equipment shall be properly grounded and bonded.

3. All electrical equipment shall be properly labeled and marked.

4. All electrical equipment shall be properly protected against overcurrent and short-circuit.

5. All electrical equipment shall be properly protected against lightning and other atmospheric disturbances.

6. All electrical equipment shall be properly protected against water and other environmental factors.

7. All electrical equipment shall be properly protected against mechanical damage.

8. All electrical equipment shall be properly protected against unauthorized access.

9. All electrical equipment shall be properly protected against theft.

10. All electrical equipment shall be properly protected against unauthorized use.

TELECOM GENERAL NOTES

1. All telecom equipment shall be installed in accordance with the National Electrical Code and all local and state telecom codes.

2. All telecom equipment shall be properly grounded and bonded.

3. All telecom equipment shall be properly labeled and marked.

4. All telecom equipment shall be properly protected against overcurrent and short-circuit.

5. All telecom equipment shall be properly protected against lightning and other atmospheric disturbances.

6. All telecom equipment shall be properly protected against water and other environmental factors.

7. All telecom equipment shall be properly protected against mechanical damage.

8. All telecom equipment shall be properly protected against unauthorized access.

9. All telecom equipment shall be properly protected against theft.

10. All telecom equipment shall be properly protected against unauthorized use.

11. All telecom equipment shall be properly protected against unauthorized access.

12. All telecom equipment shall be properly protected against theft.

13. All telecom equipment shall be properly protected against unauthorized use.

14. All telecom equipment shall be properly protected against unauthorized access.

15. All telecom equipment shall be properly protected against theft.

16. All telecom equipment shall be properly protected against unauthorized use.

17. All telecom equipment shall be properly protected against unauthorized access.

18. All telecom equipment shall be properly protected against theft.

19. All telecom equipment shall be properly protected against unauthorized use.

20. All telecom equipment shall be properly protected against unauthorized access.

21. All telecom equipment shall be properly protected against theft.

22. All telecom equipment shall be properly protected against unauthorized use.

23. All telecom equipment shall be properly protected against unauthorized access.

24. All telecom equipment shall be properly protected against theft.

25. All telecom equipment shall be properly protected against unauthorized use.

26. All telecom equipment shall be properly protected against unauthorized access.

27. All telecom equipment shall be properly protected against theft.

28. All telecom equipment shall be properly protected against unauthorized use.

29. All telecom equipment shall be properly protected against unauthorized access.

30. All telecom equipment shall be properly protected against theft.

31. All telecom equipment shall be properly protected against unauthorized use.

32. All telecom equipment shall be properly protected against unauthorized access.

33. All telecom equipment shall be properly protected against theft.

34. All telecom equipment shall be properly protected against unauthorized use.

35. All telecom equipment shall be properly protected against unauthorized access.

36. All telecom equipment shall be properly protected against theft.

37. All telecom equipment shall be properly protected against unauthorized use.

38. All telecom equipment shall be properly protected against unauthorized access.

39. All telecom equipment shall be properly protected against theft.

40. All telecom equipment shall be properly protected against unauthorized use.

41. All telecom equipment shall be properly protected against unauthorized access.

42. All telecom equipment shall be properly protected against theft.

43. All telecom equipment shall be properly protected against unauthorized use.

44. All telecom equipment shall be properly protected against unauthorized access.

45. All telecom equipment shall be properly protected against theft.

46. All telecom equipment shall be properly protected against unauthorized use.

47. All telecom equipment shall be properly protected against unauthorized access.

48. All telecom equipment shall be properly protected against theft.

49. All telecom equipment shall be properly protected against unauthorized use.

50. All telecom equipment shall be properly protected against unauthorized access.
NOTES

1. REFER TO CIVIL SHEETS FOR ADDITIONAL DEMOLITION NOTES.

2. EXISTING SITE ELECTRICAL CAN ONLY BE REMOVED &
   DEMOLISHED ONCE NEW SITE ELECTRICAL HAS BEEN INSTALLED & TEMPORARY POWER CONNECTIONS
   HAVE BEEN PROVIDED.

3. REFER TO DRAWING SWG-107 & 402 FOR
   CONNECTIONS TO EXISTING SWITCHES & TRANSFORMERS.
