Self-Screening

All employees, students, and visitors are expected to complete self-screening procedures for recognized COVID-19 symptoms before coming onto campus. Because most of our office and instructional spaces meet the low/medium levels from the OSHA workplace assessment pyramid, all employees, students and visitors are asked not to enter District sites if experiencing COVID-19 symptoms or if recently exposed to an infected person.

Temperature checks will only be performed in high density environments, such as dental hygiene and athletics.

For activities determined to have potentially greater than average risk for transmission, the District will monitor the self-reporting of staff and students coming to campus for those purposes. For College Athletics, the District will be using the Healthy Roster electronic application. The District’s Director of Risk Management will monitor and track positive test results or reports of symptoms and will follow the described protocol for notifications and actions. Following successful deployment of this tool within individual College Athletics departments, the District will evaluate it for broader implementation.
