District Announces Spring 2021 Will Be Online

The Contra Costa Community College District (District) has decided to offer predominantly online courses and student services for the entire 2020-21 academic year because of the COVID-19 pandemic. A limited number of students will continue to be allowed on campus to attend hard-to-convert courses and labs -- strict adherence to county social distancing guidelines will be enforced to ensure student and employee safety. The District has been operating remotely since March 16, 2020.

“We thought it was best to make this decision as early as possible to give our students, faculty and administrators the opportunity to plan accordingly”, said interim chancellor Gene Huff. “This has been a challenging time for many of our students who are taking online courses for the first time, and we want to thank them for their perseverance and flexibility. Our many support services like tutoring and counseling are ready to assist our students achieve their academic goals with us.”

Registration for spring 2021 courses begins in November and depends on a student’s priority. To view what classes may be offered, students should visit their InSite account or college website of your choice for specific details.

###

The Contra Costa Community College District (CCCCD) is one of the largest multi-college community college districts in California. The CCCCDC serves a population of 1,019,640 people, and its boundaries encompass all but 48 of the 734-square-mile land area of Contra Costa County. The District is home to Contra Costa College in San Pablo, Diablo Valley College in Pleasant Hill, Los Medanos College in Pittsburg, as well as educational centers in Brentwood and San Ramon. The District headquarters is located in downtown Martinez.
